

Quality Assurance – Quality Clause Addendum

Process in accordance with EMS-QAG-24

This form must be filled out completely with no blanks. If a section is not applicable, mark “N/A” or strike through.

GACP NUMBER: N/A
PROGRAM/PROJECT NAME: N/A
PROGRAM/PROJECT NUMBER: 38104
PRIME CONTRACT NUMBER: N/A

The requirements in this Quality Assurance – Quality Clause Addendum are in addition to the requirements in 09492L00008, General Atomics Electromagnetic Systems Standard Quality Clauses (“Quality Requirements”).

During the execution of the Program/Project or Prime Contract referenced above, the Buyer’s customer may modify the requirements with additional terms; therefore, the Buyer reserves the right to amend the Quality Requirements as the Buyer deems reasonably necessary to comply with the modified requirements.

ADDITIONAL QUALITY REQUIREMENTS:

09492VLT000007 - Quality Assurance - Quality Clause Addendum Product Marking

Seller shall permanently mark each part in a location that remains legible and visible after installation. Required markings are identified below and, where applicable, will be specified on the purchase order, drawing notes, contract requirements, and/or the manufacturer’s design documentation.

If a part cannot be permanently marked, the Seller shall notify the Buyer by submitting a Supplier Deviation Request (SDR) for disposition and approval prior to shipment in accordance with Quality Clause (QC) 221.

Required markings may include, but are not limited to:

- Part Number
- Serial Number
- Manufacturer Lot and/or Batch Number(s)
- Connector and/or Terminal Identification
- Polarity
- Flow Direction
- High-Voltage and/or Electrostatic Discharge (ESD) warnings
- Orientation
- Other markings as applicable for clarity, safety or functionality
